

Prophecy User Manual

Welcome to Prophecy a multi-media tracking iOS application built to help you find out what movies, shows , and video games are coming out and to see what your friends are interested in. Get started below

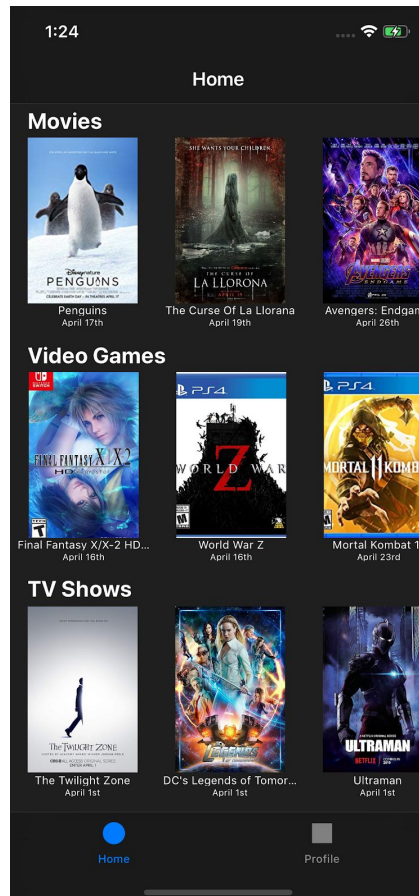

Step 1: Login

When the application opens the login screen below should appear. Tap on the user name box and input your username then tap on the password box and enter in your password. Then the Home Page will appear

Step 2: Navigating the Home Page:

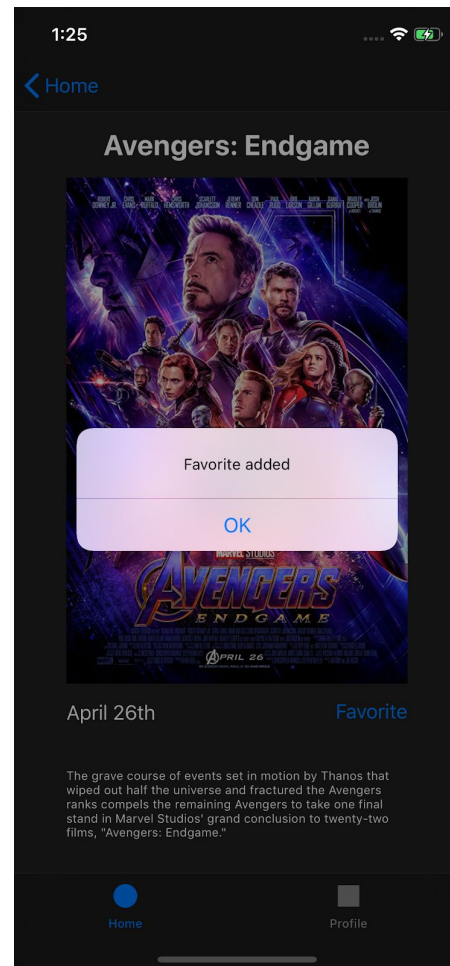

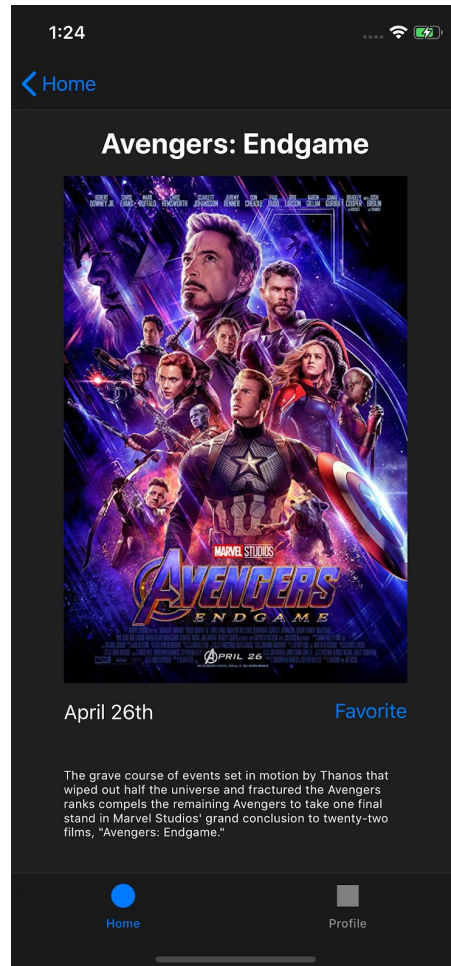

Once on the homepage scroll through the media you are interested in by dragging your finger across the images of the media. You can navigate to your profile by clicking the profile button in the lower left or to find out more about the media you are interested in by clicking on it and the application will take you to the Details page.

****If you have clicked the profile button skip to step 4****

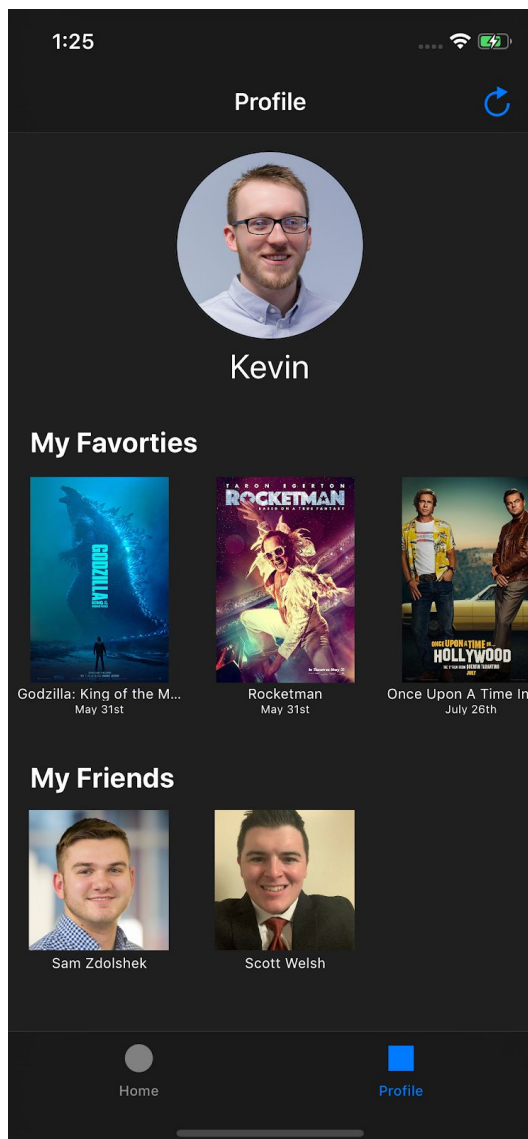

Step 3: Details Page

Once on this page you can read a description about the media and click the favorite button to add it to your personal profile. If you want to navigate back to the home page just click the back button located under the poster.

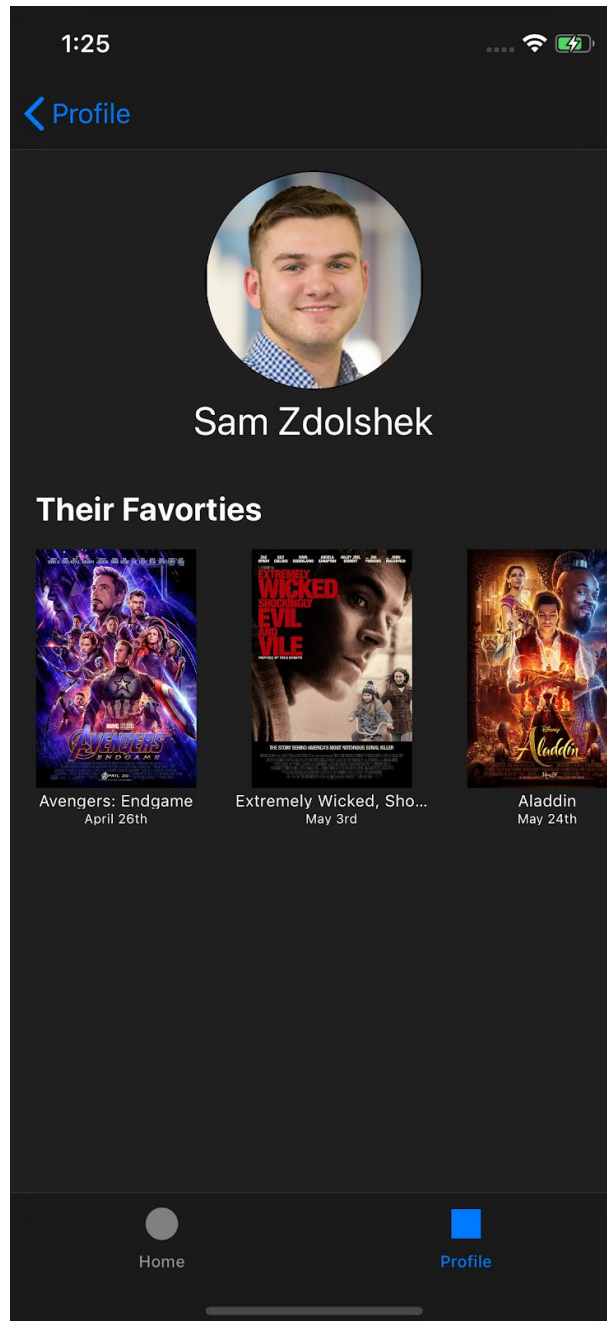

Step 4: Profile Page

On this page you can see the list of media you have favorited and the friends you follow. Scroll through the “My Favorites” list by dragging your finger across the images and you can do the same with the “My Friends” list. You can click on the media in your “My Favorites” list to navigate to the details page or you can click on your friends profile picture to navigate to their profile.

Step 5: Friends Profile Page

This page allows you to see what media your friends are interested in. See all of their favorites by dragging your finger across the "Their Favorites". To navigate back to your own profile click the back button located in the top left corner.

FAQ

Q: How can I find out what movies, shows, or video games my friends are interested in?

A: Navigate to your profile by clicking the profile button in the lower right of the application. Once on your profile you will see your friends listed, find the one you want by dragging your finger across them. Once you found the correct friend click on their picture to navigate to their profile then you should be able to see their list of favorite movies, shows, and video games.

Q: How do I see all of the movies, shows, or video games that are in the upcoming section?

A: First navigate to the home page then drag your finger across the movies, shows or video game section and now you should be able to see all the movies, shows, or video games moving across the screen.

Q: How do I see more detail about a movie, show, or video game I am interested in?

A: First navigate to the home page then once you find the movie, show, or video game you are interested in click the on it and the details screen should appear with more information.
